EXPERIENCE

YJ SIGN, INC.

Technical Operations Manager

01/2026–Present

Lead technology and business operations for a manufacturing and signage company, overseeing IT infrastructure, enterprise applications, and AI initiatives. Partner with leadership to modernize technology, improve business processes, and support organizational growth through strategic technology solutions.

- Architected and deployed the organization's on-premises IT infrastructure, including Ubiquiti networking, VLAN segmentation, firewall security, VPN connectivity, wireless networking, and centralized file services.
- Modernized the organization's Microsoft 365 environment by administering Exchange Online, Entra ID (Azure AD), Intune, SharePoint, Teams, endpoint management, licensing, and security policies.
- Designed and administered an 18 TB Synology NAS environment providing secure storage, backup management, disaster recovery, and remote access for business-critical CAD and operational files.
- Developed three custom GPT workflows in addition to leading Microsoft Copilot adoption by training all 18 employees, saving approximately 10 hours per week through automation.
- Coordinated Agile-based Mendix development initiatives by managing requirements, project timelines, stakeholder communication, testing, and deployment.
- Managed procurement, vendor relationships, licensing, budgeting, and payroll while leading an IT migration that saved approximately \$40,000 annually.

BLACKLINE SYSTEMS, INC.

IT Senior Support Engineer

04/2020–12/2025

Supported enterprise technology operations for a global SaaS organization, delivering end-user support, managing enterprise technologies, and driving process improvements across IT operations. Partnered with cross-functional teams to enhance service delivery, improve operational efficiency, and support strategic technology initiatives.

- Spearheaded an \$80M enterprise hardware refresh initiative, coordinating deployment activities and ensuring technology assets remained secure, compliant, and aligned with organizational standards.
- Analyzed enterprise support trends to identify recurring issues, providing data-driven insights that improved processes and enhanced the employee support experience.
- Resolved 1,400+ monthly enterprise support requests spanning hardware, software, identity management, and enterprise applications while maintaining a 4.7 customer satisfaction rating.
- Administered enterprise technologies, including Microsoft 365, Exchange Online, Azure AD, endpoint management solutions, collaboration platforms, and remote support tools.
- Authored and maintained 70+ knowledge base articles, standard operating procedures, and technical documentation within Confluence and SharePoint, improving knowledge sharing and issue resolution.
- Supported the development of an internal AI-powered support chatbot by contributing technical content and process documentation that enhanced self-service capabilities.

Continued...

...Experience continued

- Mentored junior engineers and IT analysts while leading onboarding, technical training, and knowledge transfer initiatives that strengthened team performance and accelerated employee productivity.

Corporate IT Project Coordinator**08/2019–04/2020**

Coordinated enterprise technology projects supporting executive initiatives, collaborating with business stakeholders, vendors, and technical teams to deliver strategic technology solutions.

- Managed concurrent IT projects supporting executive initiatives, including Salesforce Quote-to-Cash and Conga implementation efforts.
- Coordinated project lifecycles from requirements gathering through implementation, testing, vendor management, and stakeholder communication.
- Prepared financial analyses, vendor evaluations, and project documentation to support technology investments and executive decision-making.

JK RESIDENTIAL, INC.

Executive Assistant**01/2018–08/2019**

Supported executive leadership for a residential property management company overseeing approximately 175 properties.

- Coordinated business operations, financial reporting, vendor relationships, and executive initiatives to improve organizational efficiency and decision-making.
- Coordinated executive operations by managing complex calendars, scheduling, travel arrangements, and business communications for senior leadership.
- Prepared financial reports, analyzed operational data, and developed executive presentations to support budgeting, planning, and strategic decision-making.
- Managed vendor relationships, contract administration, compliance activities, and cross-functional communications to ensure efficient business operations.
- Supported organizational initiatives by coordinating projects, maintaining documentation, and improving administrative processes across multiple departments.
